I advised NRMRL that we need to have the FR notice in-hand to carry over to the FR office on Monday, Jan. 7. However, there are several sticky issues that need to be worked out, so I'm not sure if we'll have it on the 7th. We probably have until the 9th at the latest to get it to the FR office.

There has been no decision about the number of days for the extension or the new closing date. Six months was tossed around, but not confirmed.

Re: Fw: Addition to the cabinet report

Do you know what day we're sending the note over to the FR? Also, do we know when we're extending the period comment to? Or how many days it's being extended for?

Thanks! Megan

Re: Fw: Addition to the cabinet report

This is an ORD and R8 item:

EPA will soon announce an extension of the public comment period beyond January 15, 2013 for the external review of the draft research report entitled, "Investigation of Ground Water Contamination near Pavillion, Wyoming." The Federal Register Notice will be published at the end of the week of January 7 or the beginning of the following week. The objective of the investigation is to assess ground water quality in the Pavillion area and to identify potential sources of contamination.

Fw: Addition to the cabinet report

Hi Fred- Do you have three or so sentences to summarize this? I usually draft these, but I don't know anything about this item! Feel free to send me background info and I can write something up if that's easier.

Thanks! Megan

Addition to the cabinet report

Megan,

Fred Hauchman is working on an FR notice on the Pavillion comment period that will need to go to the FR by Monday. Can you send a blurb as an addendum to Monday's cab report please? thanks

Mary
